Rimbault Press. Paperback. Condition: New. 224 pages. Dimensions: 8.4in. x 5.4in. x 0.7in. INTRODUCTORY IN compiling this book on Blacksmith work, I have in mind the many little difficulties which arise from time to time in this class of work. In my own experience, and also in that of my fellow workmen, problems both of time saving and labour saving have had to be solved, and the tricks of the trade and wrinkles which have been learned thereby, are passed on in this book to anyone who can make use of them. I trust that they will be found of real service to the young and ambitious smith. Blacksmithing is a trade difficult to learn. Well termed the King of Trades, practically every kindred trade depends on it in some shape or form. Tools, without which modern methods could not be de- veloped, have to be speedily made, repaired and tempered. I have endeavoured in this book to demonstrate, by drawings and simple text matter, specimens of smith work commonly done, and the best, simplest and quickest way to do them. From my own experience, gained at the forges of different engineering works, I have tried to pass on the easiest and best methods of arriving at the finished job. The different types of forged work seen to-day, and the various methods by which they may be done, appear to be endless. It is not surprising, therefore, that many smiths are often at a loss as to how to commence a job and how best to proceed with it. It is no uncommon sight to see a smith commence with what should really be an intermediate or final operation. Valuable time and material is often lost through such methods. With a view to surmounting this difficulty, I have illustrated the finished...
