HEAT PUMPS FOR THE HOME

The Crowood Press Ltd. Hardback. Book Condition: new. BRAND NEW, Heat Pumps for the Home, John Cantor, Gavin Harper, In recent years, heat pumps have emerged as a promising new form of technology with a relatively low environmental impact. Moreover, they have presented householders with an opportunity to reduce their heating bills. Heat pumps can heat a building by 'pumping' heat from either the ground or the air outside: an intriguing process which utilizes principles that are somewhat analogous to those employed in the domestic refrigerator. Armed with the practical information contained in these pages, homeowners will have the necessary knowledge to take advantage of this potentially low-carbon technology to heat their properties.
