Reviews

This is basically the finest publication i actually have go through till now. We have read and i also am confident that i am going to likely to read through again once more in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Prof. Adell Lubowitz)

ENCYCLOPAEDIC DICTIONARY OF BIOETHICS, 4 VOLS

Global Vision Publishing House, 2012. Hardcover. Book Condition: New. Bioethics is the multi-disciplinary study of ethical problems of humanity arising from scientific advances in medicine and technology examined in the light of moral values and principles. It deals with questions of moral dimension and professional responsibility involving all forms of life: issues of medical decision making, living and dying, withdrawing and withholding medical care, conducting research on human subjects, allocating scarce resources, transferring cells from one or several organisms to produce another with particular characteristics (cloning), and preserving natural resources by efficient use of energy to protect the atmosphere and counteract the deleterious effect of pollutants. This second revised and expanded edition of Encyclopaedic Dictionary of Bioethics consisting of four volumes has become a monumental work for its exhaustive explanation of more than 145 entries which deals with the various aspects of bioethics and its application in research and practices in biosciences. This revised edition contains all the entries of first edition in revised form and 45 new entries have been included in it. The entries in this Encyclopaedic Dictionary not only deals with medical ethics, but it also includes the moral, social and political problems that arise out of bio sciences. This book would be an ethical asset for medical professionals and other bio-scientists. Contents Volume 1 Preface (v) A Abortion 1 AIDS 8 Alternative Medicine 44 American Medical Association 50 B Behaviour Therapy 51 Behaviourism 53 Bills of Rights Medical 55 Biocentrism 57 Biodiversity 70 Bioethics 103 Biofeedback 126 Biological Warfare 129 Biomedical Technology 131 Biotechnology 133 Birth Control 156 Birth Control Technology 186 Birth Defects 213 Brain Death 216 Brown Louise 228 C Cesarean Section 229 Child Psychology 229 Children?s Rights 232 Coercive Treatment in Psychiatry 236 D Death: The Medical Aspects 249 Diagnosis 260 Disability Rights...
