Maritime Administration, Ship Disposal Program Needs Improved Communications and Updated Strategic Plan: Report to Congressional Committees. (Paperback)

By U S Government Accountability Office

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Timely and proper disposal of obsolete ships in the National Defense Reserve Fleet-older ships designated for use in national emergencies-is critical to protecting the environment. Because these ships often contain hazardous materials, members of Congress and others have raised issues about the environmental concerns. As part of the Department of Transportation, MARAD s Ship Disposal Program serves as the federal government s agent for competing and awarding contracts for recycling the ships materials. Congress has required MARAD s ship disposal program to award ship recycling contracts to qualified ship recycling facilities on the basis of best value. The Coast Guard and Maritime Transportation Act of 2012 mandated that GAO review MARAD s source selection procedures and practices used to award ship recycling contracts. In this report, GAO assessed MARAD s (1) source selection process; (2) communication strategy with ship recycling contractors; and (3) long-term ship disposal strategy. To complete this work, GAO reviewed and analyzed documentation on MARAD s qualification process, source selection procedures, and strategies; and interviewed MARAD and all of its qualified ship recycling contractors.
