

Mental Disorders and Treatment

By Katherine Marsland

Global Vision Publishing House, 2011. Hardcover. Book Condition: New. This book entitled, Mental Disorders and Treatment is organised in twelve chapters in two parts. The first part deals with the nature, causes and symptoms of mental disorder. It covers six chapters dealing with genetic aspects, organic aspects, biological aspects, epidemiology, childhood mental disorder, and experimental study. The second part of this book describes the treatment of mental disorders such as various forms of psychotherapy, psychiatric medication, and other practices. It covers six chapters that include psychological treatment, client-centred counselling, group psychotherapy, behaviour therapy, somatic treatment; and therapeutic community. This book presents a balanced view of mental disorders and its treatments, and has focused on current methodology in this field. It reflects an eclectic orientation, and indicates a variety of psychosocial, physiological and behavioural aspects of mental illness and its cure. This book would be valuable asset for the reader seeking knowledge about mental disorder. CONTENTS Preface (v) PART ?I: DISORDERS 1.
