Reviews

It is just one of my personal favorite books. I was able to comprehend every little thing out of this published e-publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

The great Russian explorer Nikolay Przhevalsky (1839-1888) made an indelible contribution to the worlds atlases, and its store of zoological and botanical knowledge, as a consequence of his four arduous and dangerous expeditions through the Central Asia of Western Mongolia, Eastern Turkestan and Northern Tibet. Donald Rayfields biography of Przhevalsky - first published in 1976 and drawing on the exporers diaries, letters, and published works - tells the thrilling story of the explorers groundbreaking journeys, undertaken in an age of extreme political sensitivity between Russia, China and Britain. A rich portrait emerges of an extraordinary Byronic character who was ill-suited to civilisation but much at home with the loneliness and hardship of the nomadic life. A rigorous army officer and a phenomenal shot, gifted also with a photographic memory, Przhevalsky became one of the most widely-admired men in Russia, and Rayfield adroitly explores the grounds of his reputation.
