Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Handbook of the Marine and Fresh Water Fishes of the British Islands: Including an Enumeration of Every Species This handbook has at the same time been compiled with the view of providing a complete reference catalogue or index to the fine series of spirit-preserved British marine and freshwater fishes collected by Dr. Francis Day, which after exhibition in their present position in the East Quadrant will be given to the nation, and placed permanently on view in the Buckland Fish Museum. This museum, it is hopefully anticipated, will on the close of the Exhibition be enriched by many kindred acquisitions. As will be observed, the numbers quoted in these pages in consecutive order after the popular and technical titles of each fish, coincide with the same numbers inscribed on the labels attached to the jars which contain the above-named fish collection, while an extended special description of the individual specimens thus exhibited is frequently given in the text. In like manner, by way of exemplifying certain rare forms, not in the Day Collection, and the larger sizes to which our indigenous fishes not unfrequently attain, reference is constantly made to the magnificent series of coloured plaster casts prepared by the late Mr. Frank Buckland, and to the many preserved specimens contained in the Buckland Museum, now thrown open to the public in conjunction with the Exhibition Courts. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In...
