

Investment in Blood: The True Cost of Britain's Afghan War

By Frank Ledwidge

Yale University Press. Paperback. Book Condition: new. BRAND NEW, Investment in Blood: The True Cost of Britain's Afghan War, Frank Ledwidge, In this follow-up to the extremely successful Losing Small Wars, Frank Ledwidge analyses the cost - both financial and human - of Britain's involvement in the Afghanistan war. With the aid of interviews, on-the-ground research and countless Freedom of Information requests, he pieces together the enormous burden the Afghan intervention has placed on the shoulders of British soldiers and their families, UK taxpayers and - by far the greatest sufferers - Afghan civilians. Amongst other issues, he highlights the soldiers left horribly maimed, UK funds poured into the corrupt black hole that is the Afghan government, refugees driven out of Helmand province into disease-ridden camps, and the long-term damage to the international reputation of the UK military. Ledwidge argues that the only true beneficiaries of the conflict are development consultants, Afghan drugs kingpins and international arms companies. This is both an extraordinary piece of investigative journalism and a heart-breaking account of military adventurism gone horribly wrong. A new afterword brings the analysis up to date.

Reviews

This ebook is indeed gripping and fascinating. It is definitely simplistic but excitement from the 50 % of your book. You wont sense monotony at at any time of your own time (that's what catalogs are for relating to should you check with me).

-- **Mr. David Stanton Jr.**

The book is fantastic and great. It normally will not cost an excessive amount of. I am just easily could possibly get a satisfaction of reading a published ebook.
