

Battlefields of the World War: Western and Southern Fronts a Sudy in Military Geography (Paperback)

Filesize: 1.58 MB

Reviews

An incredibly great ebook with lucid and perfect explanations. It is actually rally fascinating throgh studying period of time. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Josefina Yundt)

BATTLEFIELDS OF THE WORLD WAR: WESTERN AND SOUTHERN FRONTS A SUDY IN MILITARY GEOGRAPHY (PAPERBACK)

St. John s Press, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This is a fantastic book about the battles and battlefields from the ground-level view. It is very mat-of-fact in tone and brims with information not found elsewhere on these deadly battles. It includes important terrain photos, meant to be tactical impressions. From the Introduction . . . Do the mountains defend the army, or does the army defend the mountains? The problem is an old, one, and has claimed the attention of military authorities in all countries and in all times. Expressed in broader terms, it is the oft-debated question as to the relative influence of topography upon strategy and tactics under changing conditions of warfare. It is an ever-recurring question, for each revolution in methods of combat brings in its train a body of opinion intent on demonstrating that, under the new conditions of fighting, topographic obstacles have lost their significance, strategic gateways no longer exist, and commanding positions no longer command. Then, as opposing forces share in the new discoveries, or profit in equal measure by new systems, the fundamental importance of topography reasserts itself, and each side maneuvers for an advantageous position on the terrain as one of the prerequisites to victory in battle. The question is still a live one. The warfare of today employs a variety of inventions and technical devices, each of which may appear to reduce, if not to destroy, the influence of topography upon military operations. What protection is a river channel, when the modern military engineer can throw bridges across it in a few hours, defended by artillery which can reach the enemy many miles beyond the farther bank? What need has the artillery for hill positions, when guns are now...
