Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This book covers three aspects 1: Interoperability among database versions 2: Integration of related concepts for performance 3: Creation of Golden Diary in a nutshell by practical examples These intentions have been arisen based on the burning need of database users I have come across throughout my career with roles like PL/SQL developers, Database Administrators, Designers, Data analysts, Performance tuning analysts, Architects, Students, Professors, Interviewees and any DBMS enthusiast or aspirant for oracle certification. Some of these had extensive experience in what they do and have influenced me writing this book. This is an example/research oriented book which will let you navigate between different releases of oracle using alternative approaches to derive similar functionality in different versions of database. For example Truncate table cascade in 12c and approach prior to 12c and Sensitive data masking using REDACTION in 12c and prior to 12c highlight the intention. Also this book will let you integrate related concepts so that you can ponder over different similar concepts and choose the best option to achieve the best response time and throughput. Examples like nested loop Join...
